Account

S1 Splash

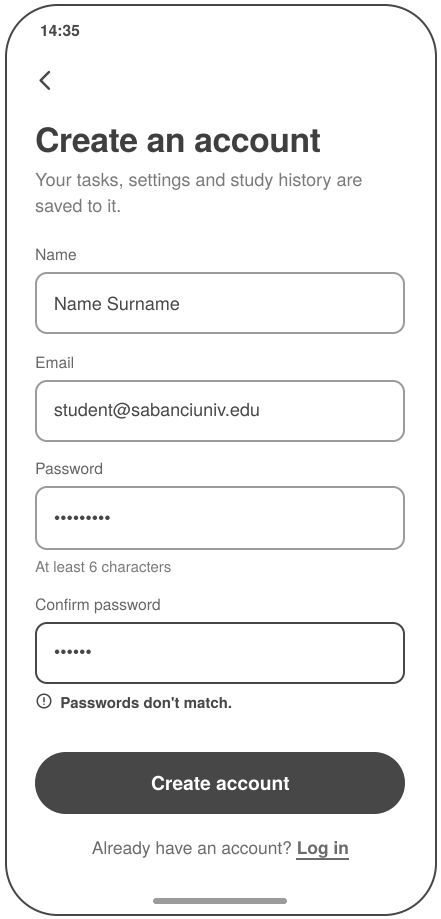

Shown while the app starts and checks if the user is already logged in. Logged-in users go to the timer, others to Log in.

S2 Log in

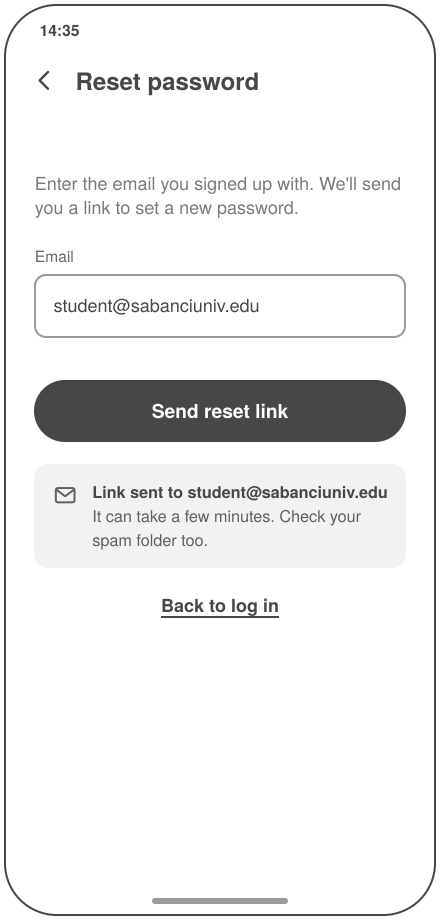

Log in with email and password. A wrong password shows an error under the field.

S3 Sign up

New users create an account with their name, email and password. Errors are shown under each field.

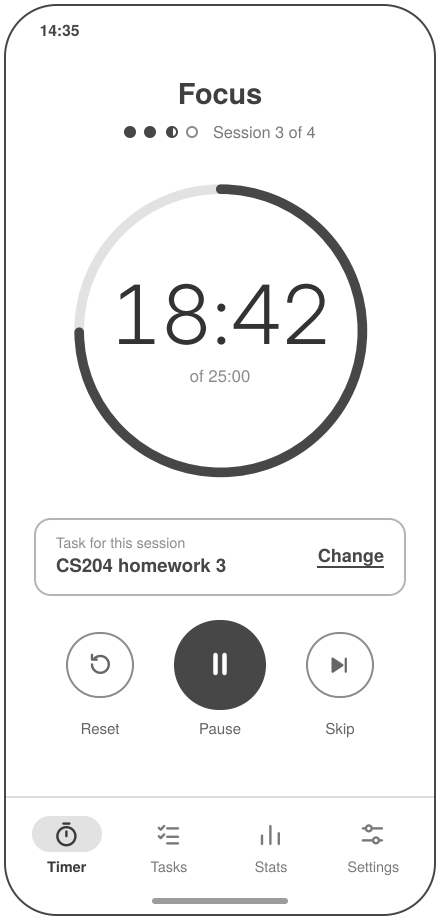

S4 Reset password

Sends a password reset link to the user's email.

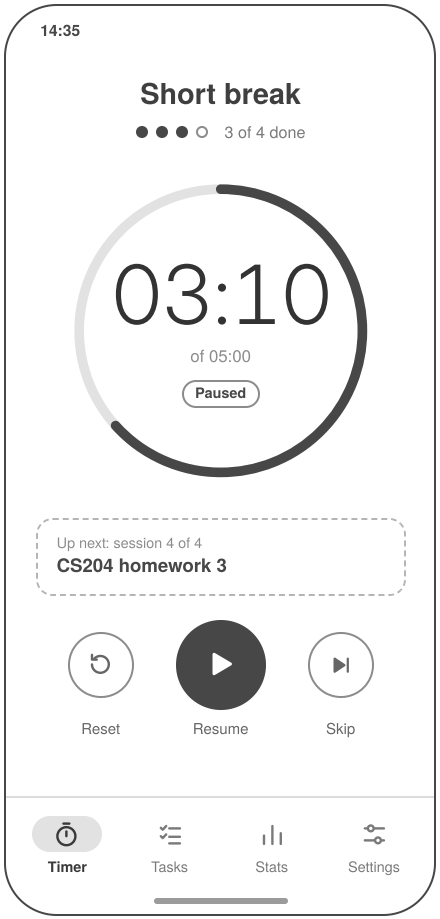

Timer

S5 Timer

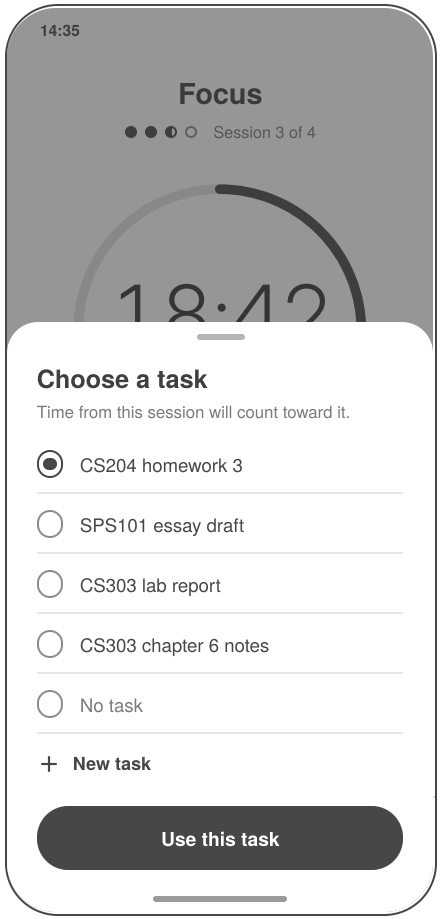

Home screen. The user starts, pauses, resets or skips the session and can change the task.

S6 Timer on a break

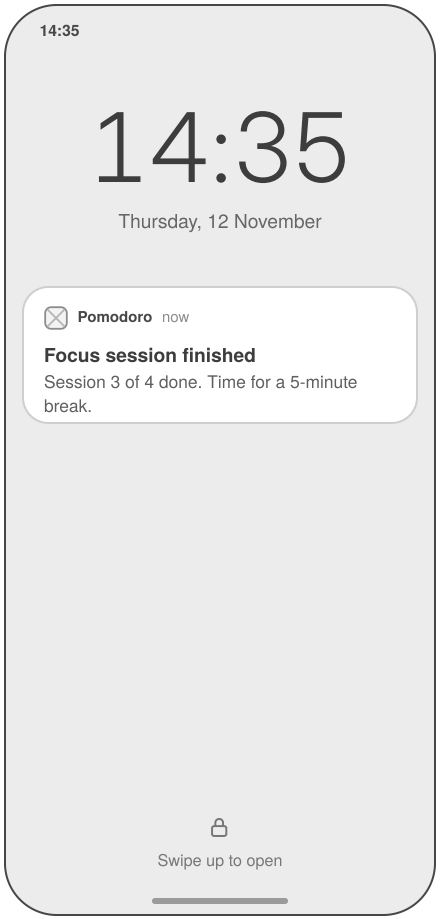

Break screen, shown here paused. After every 4th focus session the break is a long one.

S7 Choose a task

Picks the task the session counts toward. New task opens the task form.

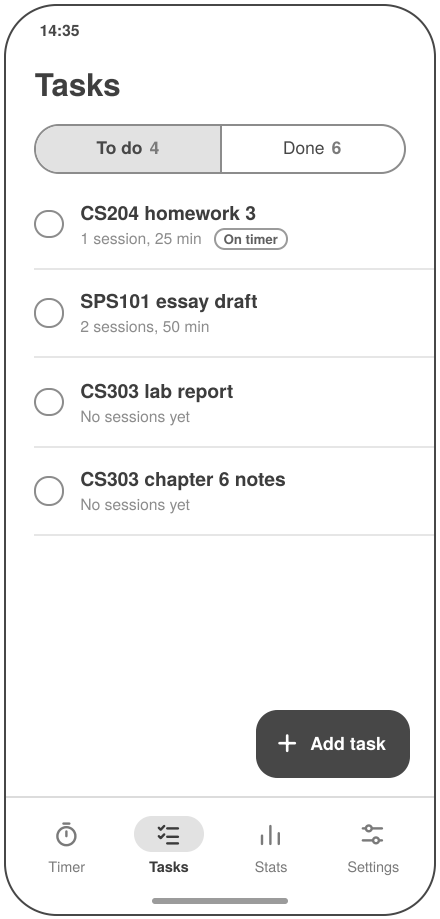

S8 Session notification

Shown when a session or break ends while the app is in the background. Tapping it opens the timer.

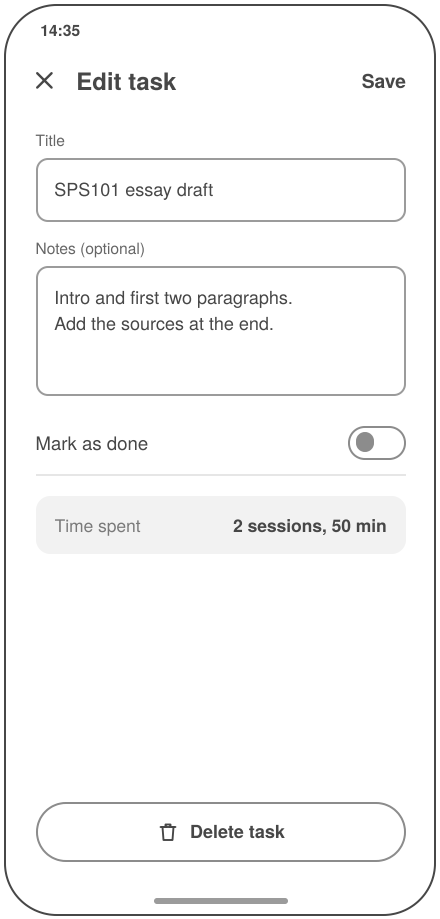

Tasks, stats and settings

S9 Tasks

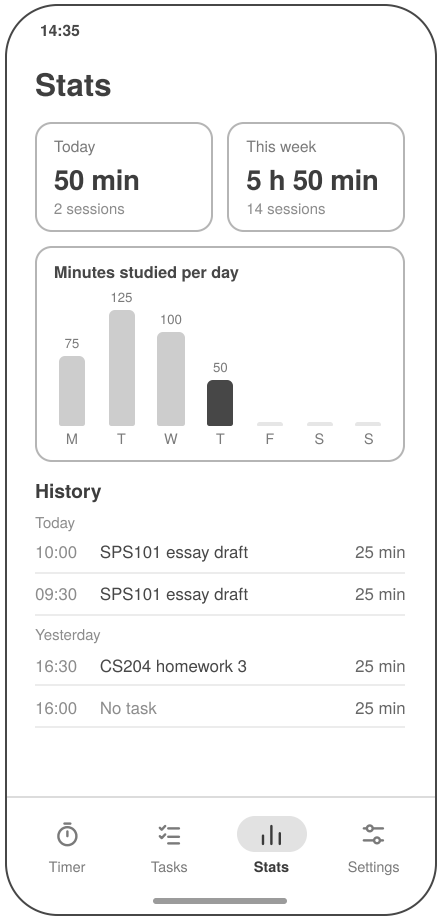

All tasks with the time spent on each. Swipe a row left to delete it.

S10 Add or edit task

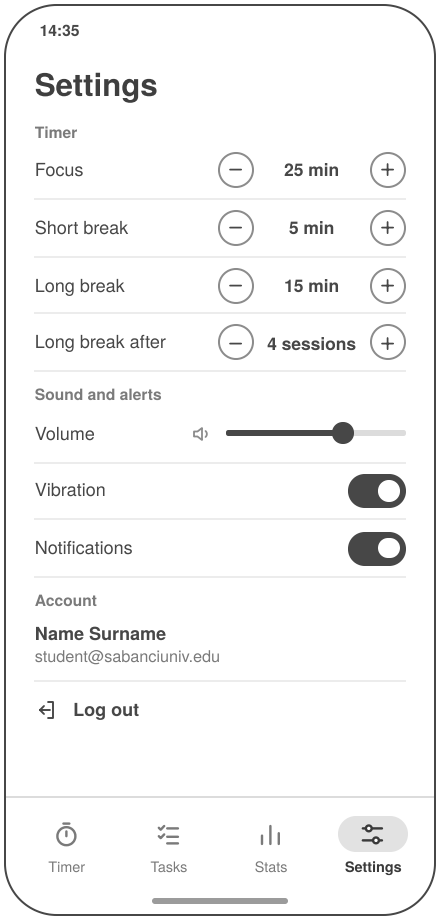

Used for both adding and editing a task. Only the title is required.

S11 Stats and history

Study time for today and this week, and a list of past sessions.

S12 Settings

Timer lengths, sound and notification settings, and log out.
